

# Call for Papers

## ESCoE Conference on Economic Measurement 2019

The Economic Statistics Centre of Excellence (ESCoE) will hold its annual conference, organised in partnership with the UK Office for National Statistics (ONS), at *King's College London*, **London 8 - 10 May 2019**.

### Keynote speakers include:

Vasco Carvalho (University of Cambridge)

Alberto F. Cavallo (Harvard University)

John Fernald (INSEAD)

We would like to invite papers on all aspects of the measurement and use of economic statistics, including: the productivity puzzle, the digital economy, National Accounts and 'Beyond GDP', regional statistics, measurement using big data and administrative data, international trade flows and the location of economic activity.

### Please submit a full paper or an extended abstract by 7 January 2019.

Full papers are preferred over extended abstracts. Submission and registration links will be available [here](#). We also welcome proposals for **Special Sessions** of up to three papers. These should be sent to [economicmeasurement2019@niesr.ac.uk](mailto:economicmeasurement2019@niesr.ac.uk). Decisions will be made soon after the deadline.

The conference will be free to attend but no funds are available for accommodation or travel. Details of support available to students will be announced in due course.

### Scientific Committee Chairs

Richard J. Smith (University of Cambridge and ESCoE)

Martin Weale (King's College London and ESCoE)

Submissions will be reviewed by the Scientific Committee and Guest Reviewers from the ESCoE and ONS.

The programme of the previous ESCoE Conference on Economic Measurement 2018 may be found [here](#).
